RE: Maritime Park

To whom it may concern:

I have had the privilege to work with Larry M Jacobs and associates Inc on the Maritime Park project located in Pensacola fl. This project was a unique and challenging project in which Larry Jacobs was a big contributor in its success. Their services included soil evaluation and recommendations, testing of concrete, soil testing, monitored sheet pile vibration and installation, threshold inspections and welding inspections.

My main point of contact was Keith Jacobs whom I found to be very helpful to insure that we had the manpower to accommodate the project as well as attending any meeting that I scheduled, even when I gave short notice he was always there to accommodate.

I will difinatly consider using this firm in the future and look forward to working with this company again.

If you should have any questions feel free to contact me.

R. Calderon

Hoar construction  
Project Superintendent.
