RE: Larry Jacobs & Associates
Recommendation Letter

To Whom It May Concern:

It is with pleasure that I write a letter of recommendation for Larry Jacobs & Associates. Larry Jacobs & Associates provided the preliminary geotechnical assessments of our project sites and assisted in the development of the Navy's RFP. Upon NTF, LLC's award of the contract, we retained Larry Jacobs & Associates as our project testing laboratory subcontractor for the three separate projects under the US Navy contract #N690450-08-C-0762, Navigator Training Hangar & CSO Applied Instruction Facility on Naval Air Station Pensacola.

Andy Phillips and his staff of technicians have excellent work habits and are very conscientious about the critical work they perform. Andy's staff has displayed the professionalism, knowledge of testing procedures and requirement, and commitment to our project which has lead to a high level of quality required by the US Navy. With the outstanding performance of Larry Jacobs & Associates on this project, I would highly recommend them for engineering and testing services for future government projects.

If we may answer any questions or be of any further assistance, then please don't hesitate to contact us.

Sincerely,
NTF, LLC

Ron Ryals
